Dear Paul *Paul,*

I would like to offer our warm congratulations from the Australian Bureau of Statistics to you and your team for winning the UN21 Award.

The creation and development of UNdata has unlocked the plethora of official statistics previously locked up in many of the websites of the UN agencies. These data which previously were invisible to users are now within reach of the researchers to develop policies or program to help build a better world for all of us to live in.

The world is now a better informed place with the creation of the product.

Congratulations again.

Yours sincerely

Brian Pink
