*Md. Shahjahan Ali Mollah*

*Director General, Bangladesh Bureau of Statistics*

I have the pleasure to express my warm felicitation to the United Nations Statistics Division (UNSD) for receiving the 2010 UN21 “Award for Improvement of Client Services” from the UN Secretary General. This bears the testimony of the great achievement of UNSD in providing the best service to the clients of UNSD which are generally the National Statistical offices (NSOs) of the UN member countries.

Indeed UNSD has rendered valuable services to the NSOs of the globe by providing technical support to the activities of NSO. UNSD also arranged regional meetings, workshops and training programmes for the capacity building of the NSOs.

I take this opportunity to convey my sincere gratitude to Mr. Paul Cheung, Director UNSD for his dynamic leadership in bringing momentum in the activities of UNSD in the recent years. I believe that UNSD will further gear-up its activities in future under his leadership.
